Patrols prep beforehand
- Hobby/collection night with patrol mtg before hand where they share with each other their hobby/collection and one is selected to be shown during zroop mtg. Then at zroop mtg after each patrol has shown theirs, the collectors mb requirement can be shared and mb counselors available if any scout wants to followup with the mb.
- Have a scout gather photos and videos of critters from scouts/families and make a slide show of them. Possible for a scout to be able to identify 10 animals perhaps as a result of this.
- Cooking recipe challenge. Challenge each patrol to select their best one pot meal and share the recipe with the troop. Presumably the members of the patrol would try to cook some of the menus before hand during their selection process.
- Virtual escape room might be possible for patrols to try.

- Similar to Hobby/collector night - scouts in their patrol share their pets if they have one, select one for to show the troop during a zroop mtg. Then introduce the pet mb requirements and some counselors.
- Show dvd of Andrew Skurka's trek around Alaska. This dvd was made when he held a talk for scouts. It is an amazing and inspiring talk.
- Virtual Tours
